DIVERSITY & INCLUSION: HOW YOU CAN MAKE A DIFFERENCE

A diverse and inclusive finance function leads to better care for patients and a better place to work. **The new report published by Future-Focused Finance and the [HFMA](#) explores the ways in which you can make a positive difference for diversity and inclusion at your organisation.** Reviewing current figures relating to diversity across all bands within the NHS and why improvements need to be made.

The report pulls together practical ideas to help support diversity and inclusion under six headings: communication, training, building the business case, culture, recruitment, and individual changes. These recommendations seek to act as a basis for consideration and discussion in organisations.

The new report created by Future-Focused Finance and the HFMA sets out: why diversity and inclusion are important; considers the current position; and suggests what actions can be taken to make a difference.
