## NEW ACCREDITATIONS AWARDED

We are delighted to announce that a further ten organisations were awarded Future Focused Finance Towards Excellence Accreditation at last week's Finance Leadership Council meeting. Seven were awarded level one, one level two and two organisations were awarded level three. This has taken the total number of accredited organisations across the country to 94.

## NEW IN POST CFO/FD SURVEY

We have created a survey to better understand support required by those who have just stepped into their first director level post.

If you are currently working at director level, please take a few minutes to complete our survey about what support you had, or would have liked to have had, when you first started in the role. We'd also love to hear from deputies if they have thoughts on what support new FDs/CFOs might need from their perspective.
