1 hr · 🗨️ · Please find attached the updated costing model which now includes the updated 21/22 A4C pay rates. I've made two other minor amendments also and defaulted the Pension / Apprenticeship Levy options to "Yes" based on feedback that these are the most common selections ("No" remains selectable as an option"). Any and all feedback welcome (Would pref...

24 Jul 2020 · 🗨️ · ...to this the draft version of my costing model. If you could find the time to critique the model for any errors or suggest any additional inclusions, please do so via my email rikki.siddle@nhs.net My own initial thoughts / notes; •Do enable macro's when you load the file. These are essential in ensuring the model works 👍 •I need to build in some addiitonal error...

22 Jul 2020 · 🗨️ · ...I promised to pull together a comprehensive costing model for us all or use - comprising of simple automated tools which finance and services managers alike could use right the way through to more comprehensive models. With COVID happening - I'm a little delayed in getting the time to do...

27 Sep 2019 · 🌐 · ...as an example - let's use our staff costing models. Each year, new pay scales received, NI thresholds will change etc. and i'm guessing that we all individually update our costing tools. These figures will be out of date, but take that individual time spent and multiply it across 207 CCG's and 251 trusts in their various guises and that is a colossal amount of...
